

PTV VISION Software Training 2011

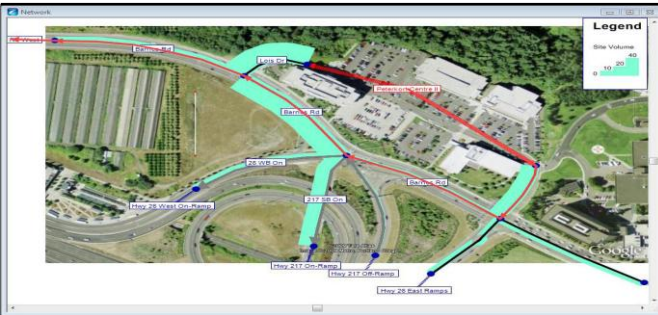

VISUM

transportation modelling
at all levels of detail

VISSIM

traffic and transport
micro-simulation

TRAFFIX

for impact assessments

Plus..

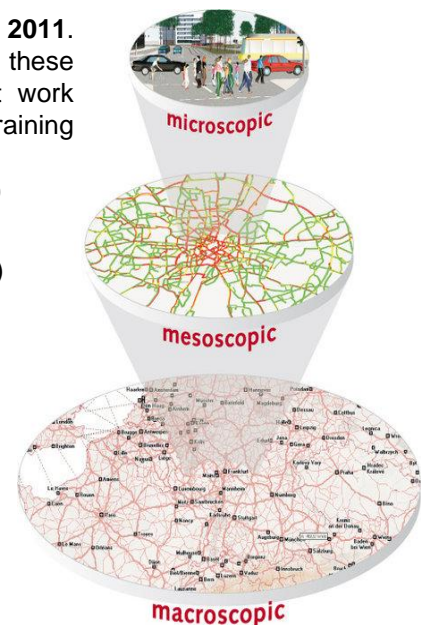

integrated pedestrian
and transport simulation

PTV is pleased to announce our software training program for 2011. Those who wish to explore the PTV Vision software suite are invited to attend these informative training sessions. Accredited PTV Vision trainers will present work related topics while demonstrating these software applications. The PTV training courses on offer in 2011 include the following:

- Comprehensive transportation modelling with VISUM (2 days)
- TRAFFIX powered by VISUM for Traffic Impact Assessments (1 day)
- Comprehensive VISSIM traffic and transit micro-simulation modelling (2 days)
- Vehicle Actuation Programming with VISSIM (1 day)
- Area Based Pedestrian and Passenger Modelling with VISSIM (1 day)

A description of the course contents can be found at www.ptvap.com/training

The **PTV Vision** software is the world leader in traffic and transport planning and modelling. More than 2,000 organisations use the **PTV Vision** software in more than 90 countries. **VISUM** is a comprehensive system for multi-modal travel demand modelling, transportation planning (public and private) and network data management while **VISSIM** is a multi-modal micro-simulation software with a high level of detail, to examine operational conditions of urban and highway traffic, including pedestrians, cyclists and motorised vehicles.

Corporate Training: PTV also offers training in your office. These sessions allow greater discussion of project-specific issues and offer a cost effective option for training with your colleagues.

Send registrations to training@ptvap.com or fax to (+61) 03-8677-2861
